

Robert Kukish

Clackamas County Commissioner 4

Why Are You Running for This Position:

I am running to serve the residents of Clackamas County by ensuring government is transparent, accountable, and responsive to community needs. I want to focus on practical solutions that support public safety, healthcare access, housing affordability, and local economic growth.

Experiences, Jobs, and Education That Make You an Ideal Candidate:

I have experience working in sectors that provide insight into community and economic issues. Additionally, my family is connected to healthcare through my wife's recently opened women's healthcare practice, giving me firsthand understanding of patient care and small business challenges. My education and work experience have provided me with skills in problem-solving, leadership, and public service.

Major Priorities If Elected and How You Would Fund Them:

1. **Support Small Businesses and Local Economy:** Streamline permitting, provide resources to locally owned businesses, and focus on sustainable growth. Funded through careful budget oversight and prioritization of existing county resources.
2. **Public Safety and Community Health:** Ensure emergency services are fully supported and expand access to healthcare for residents, especially seniors. Funded through transparent budgeting and efficient allocation of county resources.

3. **Transparency and Civic Engagement:** Maintain open communication, measurable performance standards, and avenues for public input. Funded primarily through administrative process improvements rather than new expenditures.

Anything Else You Would Like to Tell Us About Yourself:

I am deeply committed to serving all residents fairly and responsibly. My focus is on policies that support working families, seniors, and the community as a whole. I value evidence-based decision-making, open communication, and a government that is accountable to the people it serves.
