

**Your Name:** Jeannette Warren

**The Position You Are Running For:** Clackamas County Commissioner, Position 4

### **Why I Am Running for This Position**

I'm running because I care deeply about this community and want to help bring stability, trust, and common-sense leadership back to county government. I'm someone who listens, who shows up, and who believes in doing the right thing even when it's not the easiest path. I want to make sure our county is managed responsibly so people can feel confident that their tax dollars are being used wisely and that their voices matter.

**What Experiences, Jobs, and Education Make Me an Ideal Candidate:** I've spent more than 20 years working in tax, audit, compliance, and financial operations. My career has been built on accuracy, accountability, and protecting organizations from costly mistakes. I've managed multi-million-dollar budgets, led audit defense, improved internal controls, and overseen complex financial processes in large corporation settings.

### **My background includes:**

- Training Operation and Budget Manager at Daimler Truck North America
- Senior Tax Analyst at Daimler Truck North America
- Tax analyst at Consolidated Freightways/Conway Transportation
- Experience managing facilities, capital projects, vendor contracts, and safety programs
- BBA from Washington State University—Vancouver, HR minor.

These roles taught me how to safeguard resources, strengthen systems, and ensure compliance — skills that translate directly into responsible county leadership.

### **If Elected, My Top Priorities — and How I Would Fund Them:**

1. *Strengthen financial oversight and internal controls.* With my background in tax, audit, and compliance, I want to ensure the county is managing money responsibly and transparently.

- Funding: This is funded through better management — not new spending. Strong oversight saves money.

2. *Improve housing stability and responsible growth.* People deserve safe, stable housing options that fit their needs and budgets.

- Funding: Through partnerships, grants, and prioritizing infrastructure investments that support attainable housing.

3. *Support public safety and coordinated behavioral-health services.* A safe community requires strong public safety and accessible mental-health and addiction support.

- Funding: By evaluating programs for results, reallocating where needed, and pursuing state and federal funding.

## **Anything Else I'd Like You to Know About Me**

I'm not a politician — I'm a community member who wants to help. I believe in honesty, accountability, and doing the right thing even when no one is watching. I'm someone who listens, who treats people with respect, and who wants to make decisions that support the long-term health of our county. I love this community, and I want to help create a county government that people can trust again.
