

- Mark Shull
- Candidate Clackamas County Commission Position 2
- I am running for Clackamas County Commissioner because I bring a unique combination of proven leadership, real-world business experience, 25 years military service, and deep roots in our community. I built a successful small business in Clackamas County: I served as President of Shull Design and Development, where I managed design-build projects, navigated regulations, controlled costs, and delivered quality outcomes for clients. In 2020, Clackamas County voters elected me as Commissioner (Position 4). Since taking office in January 2021, I have earned the nickname “The People’s Commissioner” for my commitment to listening to every resident — regardless of political affiliation. Taxation fighter!!!!
- The top issues facing Clackamas County are skyrocketing government costs, threats of new taxes and tolling, public safety funding, housing affordability, and wildfire risk in our rural areas. I will continue to fight every new tax and tolling scheme on our highways — no compromise. I continue to demand a full audit of ODOT to find funding for I-205 improvements without burdening taxpayers. I will continue cutting waste and unnecessary spending so the county lives within its means, just like families and businesses do. On public safety, I support adequately funding our Sheriff’s Office and deputies without massive levy increases that hurt working families. For housing, we must push back against restrictive state land-use laws and Metro rules that drive up costs. Funding for these will come from cost savings in the current County budget. We cannot fund everything, so it is important to keep government small and responsive and affordable. Your money must stay in your pocket, not in the coffers of government!!

- I am the tried-and-true hardworking Commissioner-servant of the people of Clackamas County. I am sick of seeing other Commissioners treat the job like a part time inconvenience. I also do not wish to see Commissioners stay on the BCC like two very fatigued commissioners who are concluding 16 years this year and want to be elected again to go to twenty years on the BCC. I advocate for Commissioner term limits; preferably two, four year term for a total of eight years. Laziness and ineffectiveness must not be tolerated by the hard working people of this County.

I look forward to serving you again as County Commissioner. Your concerns are my concerns.
