

**The Public Affairs Committee presents**

## **One Health**

**The Deep Connection Between People's Health,  
Animal Health, and the Environment**

**Speaker: Dr. Dori Borjesson**  
**Dean of the College of Veterinary Medicine**  
**Washington State University**

**Blue Heron Auditorium**  
**Monday, September 9 – 7 p.m.**

**Dr. Borjesson, an award-winning researcher, will describe how One Health Clinics across the United States are using the human-animal bond to help heal post-traumatic stress disorder patients. Her research contributions include large animal models to study stem cell therapy for inflammatory diseases. Dori is the daughter of resident Don Borjesson.**
